

God Made The Sun, Moon and Stars

Parents,

This month will consist of our “God Made” series. This is the first lesson, then we will do “God Made Plants and Animals” and end with “God Made People”. If you have not picked up your craft kits for September, they will be available at the church. Just let me know what day you plan on picking it up and I will have it outside for you.

Monday thru Thursday are the days someone is here, usually. If you do not have a kit, the lessons will have a craft that you can put together at home.

If it's raining, print out the coloring sheet. If it's not, let them make the stars, moon and sun outside with chalk. You can talk about how the lesson today is how God made everything.

You can read the first part of the creation story from a children's bible or watch the video below. Please stop before God made plants and animals. That's next weeks lesson.

<https://www.youtube.com/watch?v=gy1Vvma8BY>

Pray **“Our God loves us so much He made a place for us to be with him. God made the whole world! And the first thing He made was light! Thank you God for making the light. Amen**

Bible Verse

“God made the whole world” - Genesis 1:1

Help the children remember the verse with these motions:

God made... (point to the sky)

...the whole world (Bring your arms up, down and around to make a large circle)

If you picked up a craft kit, they can do the star now. You can also go to the website below and see if there is something else you would like to do.

If you don't have a craft kit, here is something that you might be able to do with what you have at home. I've listed the website below if you want to get even more ideas.
